

Culture and Leadership Clubs

CARE Clubs

Children who Believe In
Acceptance
Respect and
Equality for all

CARE club's began with an idea. To provide children the opportunity to learn about various cultures and world issues and through education inspire their creativity in working to incite change at any level.

CARE clubs are for any age group and can be a part of any community programming (library, childcare centers and more!)

CARE clubs are a great way to raise awareness in communities as well as teach young people the value in leadership.

Cultural Café's

Cultural café's have been run in Red Deer for multiple years and are a unique way for people of all cultural backgrounds to share and discuss different topics.

Cultural Café's start with a theme topic like "Immigration Mythbusters" and allow people from all groups to learn, discuss and share their thoughts.

Cultural Café's are a good way to engage the adult community in an open forum where all opinions are respected and welcomed.

If you would like to host a Cultural Café in your space please contact us anytime!

Summer Cultural Programming

Since 1979, The Central Alberta Refugee Effort has been assisting the settlement of refugees and immigrants to the Central Alberta area.

This success of the last 30 years are made possibly by the wonderful citizens of Central Alberta. The public Awareness program was created to keep Central Alberta aware of, and active in creating welcoming communities.

Our programs are educational, fun and free of charge: They make a great addition to any summer program!

The C.A.R.E Difference

What sets us apart is our volunteers. CARE is lucky to have amazing volunteers from all over the world who are willing to share their culture, stories and experiences with you. Whenever possible, they come with us to your programs to enhance the experience for everyone!

Summer Programs

Multicultural Madness

Bring the world into your summer programs! CARE will bring books, crafts and whenever possible a volunteer that will help highlight a new culture with every visit.

Meet a Newcomer:

Participants will be introduced to a recent newcomer to Canada to hear their stories and learn about their experience immigrating to Canada.

Working towards Inclusion:

Participants will be challenged by different activities that build an understanding and awareness of the importance of inclusion.

Rise Above Bullying and Racism!

An active presentation on how to properly respond to acts of bullying and racism.

You Can Make a Difference!:

This presentation focuses on young people (6-12 years old) that have made differences globally. Participants are challenged to examine their lives and make differences locally or globally.

Custom Designed Programming

CARE is also able to create custom presentations for your specific needs. We've presented at school assemblies, teacher conventions, conferences, small groups and more

If you have an event or program you'd like us to attend or host please let us know, we are happy to be involved and apply our experience to make sure it's the best event or presentation possible!

Staff Cultural Awareness Training

We encounter diversity in our lives daily, and understanding how to effectively communicate and understand cultural differences is necessary.

Cultural Awareness Training addresses cultural competency and cross cultural communication within your team. We use games, activities, discussion and introspection to keep a fun, educational and open atmosphere!
